Exhibit A also includes a schedule of performance for each task, which may be modified if the workshop or public hearing schedules are delayed by the Village.

1.2 The tasks in Exhibit A will support interim amendments to the comprehensive plan and land development code that would be ready for adoption three months after this agreement is executed. Additional tasks are included that would initiate preparation of the complete new regulatory structure for mixed-use development, which would be ready for adoption twelve months after execution through more detailed amendments to the comprehensive plan and land development code.

SECTION 2 – REMEDIES

2.1 This Agreement shall be governed by the laws of the State of Florida. Any and all legal action necessary to enforce the Agreement will be held in Lee County, Florida. SECTION 3 – WAIVER OF JURY TRIAL

3.1 To encourage prompt and equitable resolution of any litigation, each party hereby waives its rights to a trial by jury in any litigation related to this agreement.

3.2 If any legal action or other proceeding is brought for the enforcement of the Agreement, or because of an alleged dispute, breach, default or misrepresentation in connection with any provisions of the Agreement, the parties agree that each party shall be responsible for its own attorney's fees.

SECTION 4 – AUTHORITY TO PRACTICE

4.1 The Consultant hereby represents and warrants that it has and will continue to maintain all licenses and approvals required to conduct its business, and that it will at all times conduct its business activities in a reputable manner and in accordance with applicable law. Proof of such licenses and approvals shall be submitted to the Village upon request.

SECTION 5 – SEVERABILITY

5.1 If any term or provision of the Agreement, or the application thereof to any person or circumstances shall, to any extent, be held invalid or unenforceable, to remainder of the Agreement, or the application of such terms or provision, to persons or circumstances other than those as to which it is held invalid or unenforceable, shall not be affected, and every other term and provision of the Agreement shall be deemed valid and enforceable to the extent permitted by law.

SECTION 6 – PUBLIC ENTITY CRIMES

6.1 As provided in Sections 287.132-133, Florida Statutes, as amended from time to time, by entering into the Agreement, Consultant certifies that it, its affiliates, suppliers, subcontractors and any other contractors who will perform hereunder, have not been placed on the convicted vendor list maintained by the State of Florida Department of Management Services within the thirty-six (36) months immediately preceding the date hereof.

SECTION 7 – ENTIRETY OF CONTRACTUAL AGREEMENT

7.1 The Village and Consultant agree that this Agreement sets forth the entire contract between the parties, and that there are no promises or understandings other than those stated herein. None of the provisions, terms and conditions contained in this Agreement may be added to, modified, superseded or otherwise altered, except by written instrument executed by the parties hereto.

SECTION 8 – WAIVER

8.1 Failure of either party to enforce or exercise any right(s) under the Agreement shall not be deemed a waiver of either party's right to enforce or exercise said right(s) at any time thereafter.

SECTION 9 – COMPLIANCE

9.1 Each of the parties agrees to perform its obligations under the Agreement in conformance with all laws, regulations and administrative instructions that relate to the parties' performance of the Agreement. In the event that either party becomes aware of a possible violation of law, regulation or administrative instruction that might affect the validity or legality of the services provided under the Agreement, such party shall immediately notify the other party and the parties shall agree on appropriate corrective action. In the event either party becomes aware that any investigation or proceeding has been initiated with respect to any of the services provided hereunder, such party shall immediately notify the other party.

SECTION 10 – INDEPENDENT CONTRACTOR

10.1 No relationship of employer or employee is created by this Agreement, it being understood that Consultant will act hereunder as an independent contractor and none of the Consultant's, officers, directors, employees, independent contractors, representatives or agents performing services for Consultant pursuant to this Agreement shall have any claim against the Village for compensation of any kind under this Agreement. The relationship between the Village and Consultant is that of independent contractors, and neither shall be considered a joint venturer, partner, employee, agent, representative or other relationship of the other for any purpose expressly or by implication.

Invoices will normally be paid within thirty (30) days following the Village's receipt of the Consultant's invoice at the mailing address stated above.

12.3 The Village may request attendance by Bill Spikowski and/or Seth Harry at workshops, meetings, presentations, or public hearings beyond those specified in Exhibit A. The Village may also request other professional services not contained in Exhibit A. 12.3 Invoices for extra attendance and other professional services shall be itemized to specifically and concisely identify each task performed and should reflect the actual time spent on each task, using 1/10 of an hour increments. Each billing entry must be sufficiently descriptive so that it can be determined exactly what professional service was provided and the appropriateness of the related time charge can be assessed.

EXHIBIT A

TASK 1 - REGULATORY FRAMEWORK & BOUNDARY MAPS [months 1–3]

- a. Expand and refine the proposed mixed-use regulatory framework. The preliminary concept is to allow higher residential densities and a greater mix of uses in traditional mixed-use patterns (city blocks and a network of walkable streets). Conceptual regulating plans would be adopted into the land development code to provide more predictability to developers and the public. The new review process would consider these mixed-use areas as future interconnected neighborhoods instead of isolated development projects.
- b. Prepare an overlay map that could be used to identify the areas where new mixed-use planning standards would apply, such as the proposed village center (east of US 41 between the Estero River and Williams Road) and the healthcare village (surrounding the intersection of US 41 and Coconut Road).
- c. Prepare a second map that could be used to identify additional areas where the new standards might be available.
- d. Draft interim comprehensive plan policies that summarize in general terms how the new framework would be implemented and applied. Determine how the new policies and maps can best be merged into the Estero community plan, which is found under Goal 19 of the transitional comprehensive plan as adopted by Section 12(6) of the village charter.
- e. Prepare a technical memorandum that includes the new maps and policies and supporting material. This document will serve as data and analysis for the state review process for the interim comprehensive plan amendments (maps and policies).

TASK 2 - TRANSITIONAL LAND DEVELOPMENT REGULATIONS [months 1–3]

- a. Review relevant sections of the transitional land development regulations, as adopted by Section 12(7) of the village charter, to identify any provisions that may conflict with or hinder preliminary implementation of walkable mixed-use development while the new regulatory framework is being completed and adopted.
- b. Draft any needed interim code changes and put them into ordinance format for review by legal counsel for the Village.

TASK 3 - REGULATING PLANS & SUPPORTING STANDARDS [months 2–10]

- a. Prepare conceptual regulating plans for areas where the new mixed-use standards would apply. The regulating plans would be created with input from affected landowners and the public.
- b. Prepare supporting standards such as block sizes, street connectivity, and building types for use in the new mixed-use code when needed to supplement existing adopted standards.
- c. Seth Harry will lead public workshops on two separate occasions to present the emerging regulating plans and standards and obtain public input.

TASK 4 - CONCEPTS FOR VILLAGE DESIGN OFFICE [months 5–7]

- a. Examine approaches used by five other municipalities to incorporate design review into planning, zoning, or design regulations.
- b. Prepare a technical memorandum that documents approaches used by other municipalities and suggests one or more methods that a village design office could coordinate and/or administer the new mixed-use regulatory framework and provide other design review services to the Village Council and its advisory boards.

TASK 5 - COMPREHENSIVE PLAN AMENDMENTS [months 4–10]

- a. Draft comprehensive plan policies to update the interim policies formulated in Task 1 that would formally authorize increased densities, implement the new mixed-use standards, and link their use to land development code amendments that would be adopted immediately thereafter.
- b. Prepare a technical memorandum that includes the new policies and any revised maps and supporting material. This document will serve as data and analysis for the state review process for comprehensive plan amendments.

TASK 6 - LAND DEVELOPMENT CODE AMENDMENTS [months 4-10]

- a. Draft land development code amendments that carry out the updated comprehensive plan policies and adopt/implement the conceptual regulating plans and new mixed-use standards. The preliminary concept is to tie the new density allowances for the mixed-use areas to a streamlined review process, which would be based on Lee County's compact community's code (Chapter 32 in the transitional land development regulations):
 - The Village Council would adopt conceptual regulating plans into the development regulations to show the anticipated network of interconnected local streets that form city blocks and to indicate anticipated levels of intensity. Significant amendments to these regulating plans, such as eliminating streets, could be proposed by master developers using the LDC amendment process.

- The Village Council would authorize a process to approve more detailed plans for blocks or groups of blocks (specifying building types and ranges of uses, establishing exact street alignments, adjusting preserve boundaries, etc.) and authorizing limited adjustments to the regulating plans. This process would be used by developers to proposed detailed development plans just prior to building streets and subdividing lots.

TASK 7 - PRESENTATIONS & PUBLIC HEARINGS [months 3–12]

- a. Participate in up to seven public meetings or public hearings to present the maps, policies, and interim code changes (Bill Spikowski: seven meetings; Seth Harry: one meeting). Receive direction from the local planning agency and the Village Council after they receive input from the public and landowners.
- b. Revise maps, policies, and documentation (20 hours have been budgeted for this sub-task).
